ATLANTICA PRECIOUS

Story and inspiration

Atlantica Precious is inspired by a delicate ancient jewel of the Spanish nobility.

A jewel was given to a young woman, of slender figure, for her commitment to one of the children of the most influential family of the Spanish nobility of the 18th century.

It is said that the jewel was as golden as his hair, and possessed shiny and rounded stones of malachite as his green precious eyes, and that this jewel granted him luck and privileges throughout his life.

Characteristics of the collection

Is a high-end bathroom collection with Malachite precious stone incrustations inspired in the royalty.

An authentic jewel of the nobility modeled to highlight its precious green colour.

Malachite is a handcrafted stone to show up its attractive lighter and darker green tonalities. Its diamond shine combined with Gold 24 karat makes the faucets and bath accessories of this collection, an unique and exclusive jewel for the bathroom.
